Order Consumables & Accessories From Hirsch shop.hsi.us

The largest embroidery space in the single-head machine lineup. Stable quality for a wide range of accessories from small to large items.

Large embroidery area : 550×600mm
By adding the special frame and table of the X-extension unit (option), an even wider embroidery range can be utilized (550×1200mm).

Applicable for large flags, store awnings, dresses. It ensures a wider embroidery space by attaching a special frame and table.

FEATURES

A wide variety optional frame lineup for various items.

TMBP-XC is the standard model with basic features. This enables to produce stable-quality embroidery on everything from small item to large flags, tablecloths, curtains or furniture.

USER-FRIENDLY DESIGN

12.1-inch touch panel

The large 12.1-inch operation panel-one of the largest in the industry-features convenient icons and allows you to switch the language used for operating the machine.

New thread trimming device eliminates picker

Eliminating the picker makes exchanging bobbins easier. It also provides more stable trimming and a 40% improvement over conventional machines in shortening thread tails on the reverse side of the fabric.

Design position adjustment function

Even if the fabric pattern is slanted in framing, it can be corrected from the operation panel, with no need for repeated attempts to reframe.
